Scott County Retail Trade Overview

Total Taxable and Gross Retail Sales

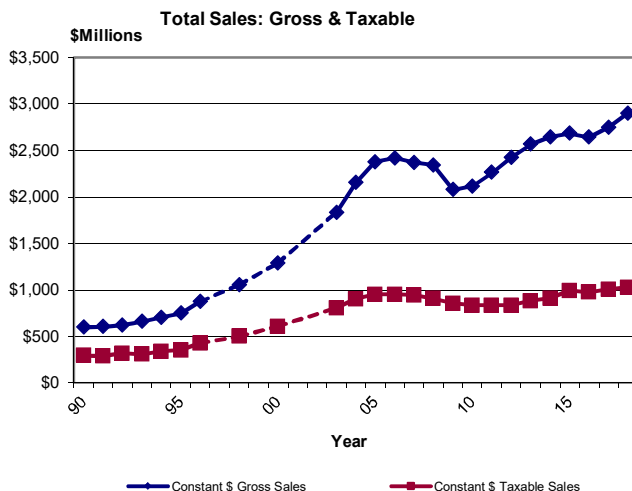

The table below presents gross and taxable retail and services sales for Jordan from 2003 through 2018. Taxable sales in Jordan declined 6.9 percent from 2011 to 2018, while the number of firms rose 2.7 percent. Statewide, taxable sales increased 9.4 percent over the same time period and the number of firms fell 3.4 percent. The per capita sales and pull factor data in this table are based on taxable sales, the more verified sales measure.

The table also presents sales data in constant 2018 dollars. These figures have been adjusted for inflation to reflect their value in 2018. For example, in 2008, taxable sales in Jordan totaled \$796.12 million, an amount worth \$904.69 million in 2018 dollars. In constant dollars, gross sales grew 28.2 percent between 2011 and 2018. Constant dollar taxable sales increased 23.3 percent over the same time period.

Year	Estimated Population	Current Dollars		Constant 2017 Dollars		Number of Firms	Per Capita Sales	Pull Factor
		Gross Sales* (\$millions)	Taxable Sales (\$millions)	Gross Sales* (\$millions)	Taxable Sales (\$millions)

Dollar Changes by Category (in Millions) 2015 - 2018

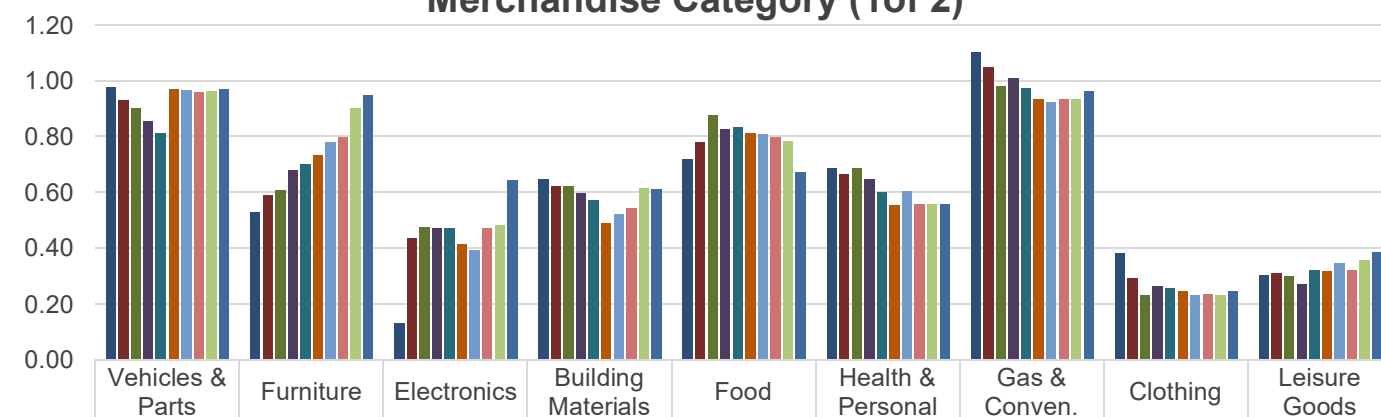

Pull Factors By Merchandise Category

Scott County

The following tables and charts depict pull factors in Scott County from 2003 to 2017* by merchandise category. Pull factors are a measure of trade area size that provide a useful measure of changes over time because they account for changes in population and state-wide industry trends.

**Pull Factors by NAICS
Merchandise Category (1 of 2)**

NAICS Category Descriptions

Motor Vehicles & Parts: Establishments that sell new & used autos, boats, motorcycles, golf carts, RV's, campers, snowmobiles, trailers, tires, and parts.

Furniture: Stores that sell furniture, beds, carpeting, window coverings, lamps, china, kitchenware, & woodburning stoves.

Electronics: Establishments primarily engaged in retailing household-type appliances, sewing machines, cameras, computers, and other electronic goods.

Building Materials: Establishments that sell lumber, hardware, paint, wallpaper, tile, hardwood floors, roofing, fencing, ceiling fans, lawn equipment, and garden centers.

Food: Grocery stores, deli's, bakery, & butcher shops that sell food to be prepared at home. Liquor stores.

Health & Personal: Pharmacies, food supplements, vision supplies, cosmetics, & hearing aid stores.

Gas and Convenience Store: Retailers that sell fuel along with convenience store items.

Clothing: New clothing and accessories, jewelry, shoes, bridal shops, clock shops, and luggage stores.

Leisure Goods: Sporting goods, books, music, hobby stores, fabric shops, and toy stores.

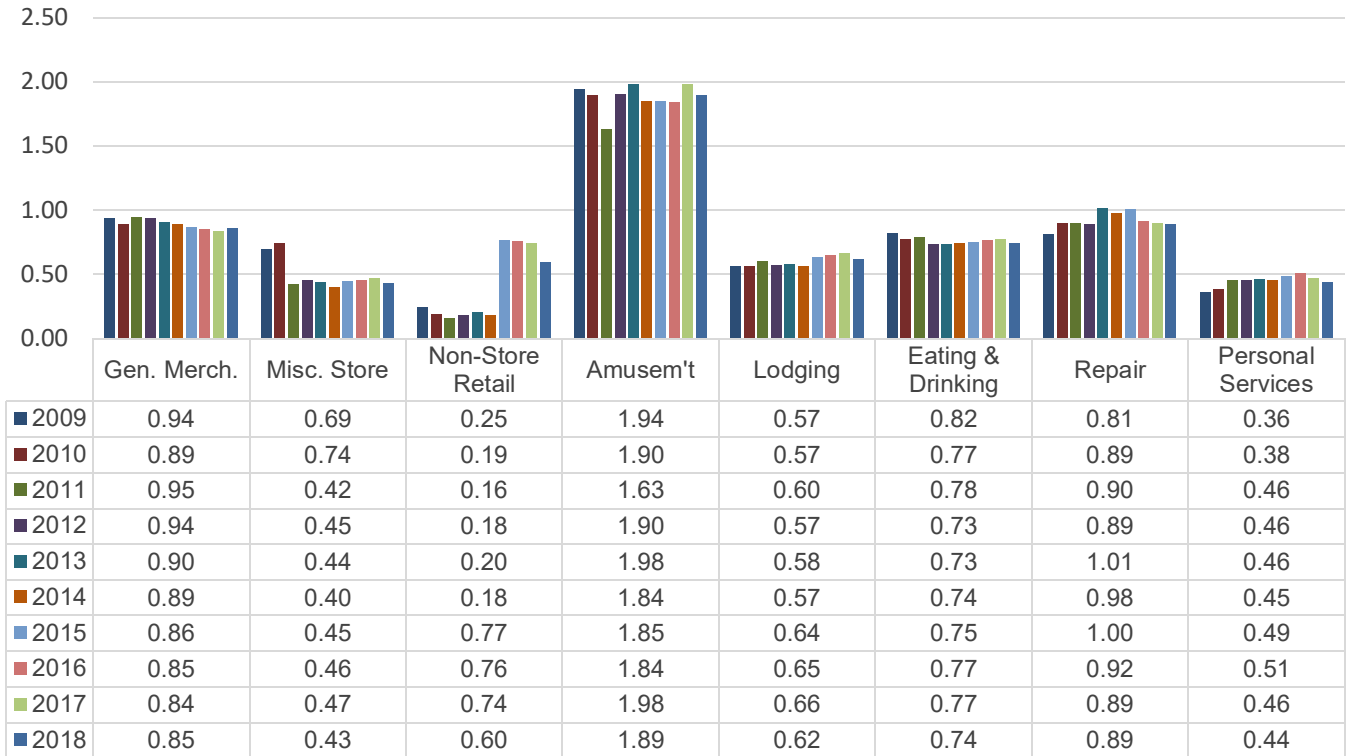

*Caution should be used when comparing pull factors before 2003 to those in later years due to the switch from SIC to NAICS.

Recent Trends By Merchandise Category

Scott County

The following tables and charts depict pull factors in Scott County from 2009 to 2018* by merchandise category. Pull factors are a measure of trade area size that provide a useful measure of changes over time because they account for changes in population and state-wide industry trends.

**Pull Factor by NAICS
Merchandise Category (2 of 2)**

NAICS Category Descriptions

General Merchandise: Establishments that sell a mixed line of goods. Examples are department stores, supercenters, and dollar stores.

Miscellaneous Store Retailers: Stores not covered in other categories such as florists, office supplies, pets, antiques, tobacco, art, used merchandise, and trophies.

Non-Store Retail: Retailers that do not use stores. This includes mail order, internet selling, bazaars, vending machines, fuel oil dealers, firewood dealers, door-to-door sales, and produce stands.

Amusement: Establishments such as golf courses, bowling lanes, marinas, amusement parks, water parks, shooting ranges, pool halls, horseback riding, ballrooms, health club facilities, ski hills, and casinos.

Lodging: Seasonal resorts, hotels, boarding houses, bed & breakfast, campgrounds, and RV parks.

Eating & Drinking: Restaurants, donut shops, coffee house, cafeteria, caterers, taverns, and nightclubs.

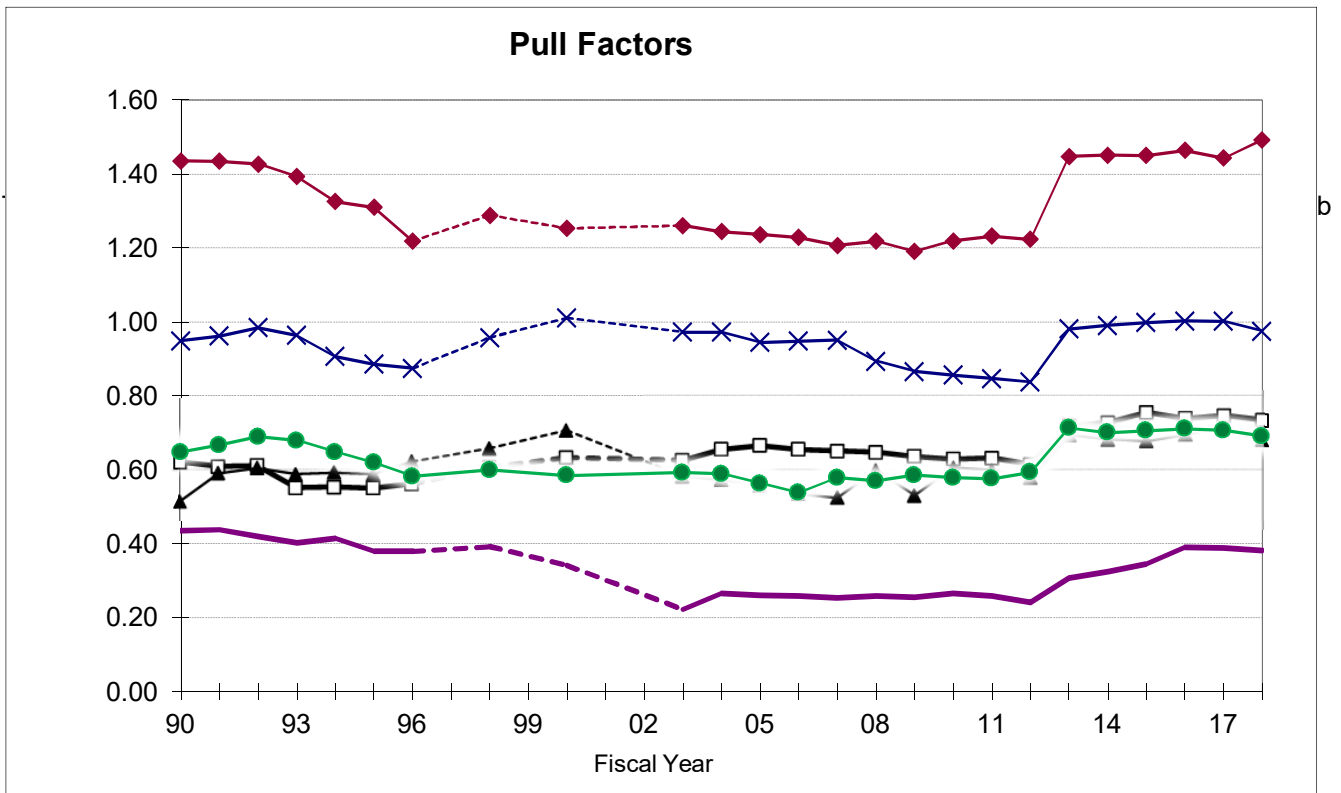

Repair: Businesses that return equipment to working order. Examples: cars, lawnmowers, small engines, knives, shoes, computers, furniture, and appliances.

Personal Services: Barbers, beauty salons, tanning facilities, funeral homes, laundromats, dry cleaners, pet groomers, and kennels

*Caution should be used when comparing pull factors before 2003 to those in later years due to the switch from SIC to NAICS.

Trade Area Analysis of Retail Sales

Scott County

The following tables provide information on retail sales by merchandise category. "Potential sales" is a standard to which actual performance is compared. In calculating potential sales, population and income characteristics are taken into account. Potential sales can be used as a guideline or "par value" in analyzing retail strength.

Deviations from these norms can be analyzed to first judge whether they should be considered relevant. If the differences appear to be significant (whether in dollar amounts or relatively with percentages), additional consideration is merited. Categories with undesirable performance may be further examined for potential corrective action. It is also important to determine whether or not the situation is relatively uncontrollable due to external or extenuating circumstances. In cases of favorable differences from expectations, the positive aspects should be identified and built upon.

Trade Area Analysis by Merchandise Category, 2018

Merchandise Group	Potential Sales (\$millions)	Actual Sales (\$millions)	Variance Between Actual & Potential		Trade Area Pop. Gain or Loss	Number of Firms	Percent of Total Sales
			In Dollars (millions)	As % of Potential			
Vehicles & Parts	\$84.73	\$80.98	-\$3.75	-4.4%	-6,401	75	7.9%

*All retail and service categories are included in Total Sales, including some categories not shown. Therefore, the merchandise groups shown here generally will not sum to Total Sales.

Scott County Retail Trade Performance in Percentages

The chart below depicts the percentage amount Scott County's actual sales were above or below potential sales in 2018 by merchandise group. Of the 16 merchandise categories with reported data, sales in 1 of the categories were above what would be expected based on the county's population and income characteristics as well as statewide spending patterns. The strongest merchandise group by this standard is the Amusement & Recreation category, which has a 71.7 percent surplus. Overall, Scott County had a retail sales leakage of 30.3 percent.

It is important to note that variations in a county's relative retail performance may occur for a variety of reasons, some of which are beyond the control of local policy. Proximity to larger population centers and transportation patterns, as well as the individual retailer's management and marketing, can cause the retail sales of a particular county to deviate substantially from potential sales. It is important that decision-makers consider these influences when constructing policies, plans, or projects.

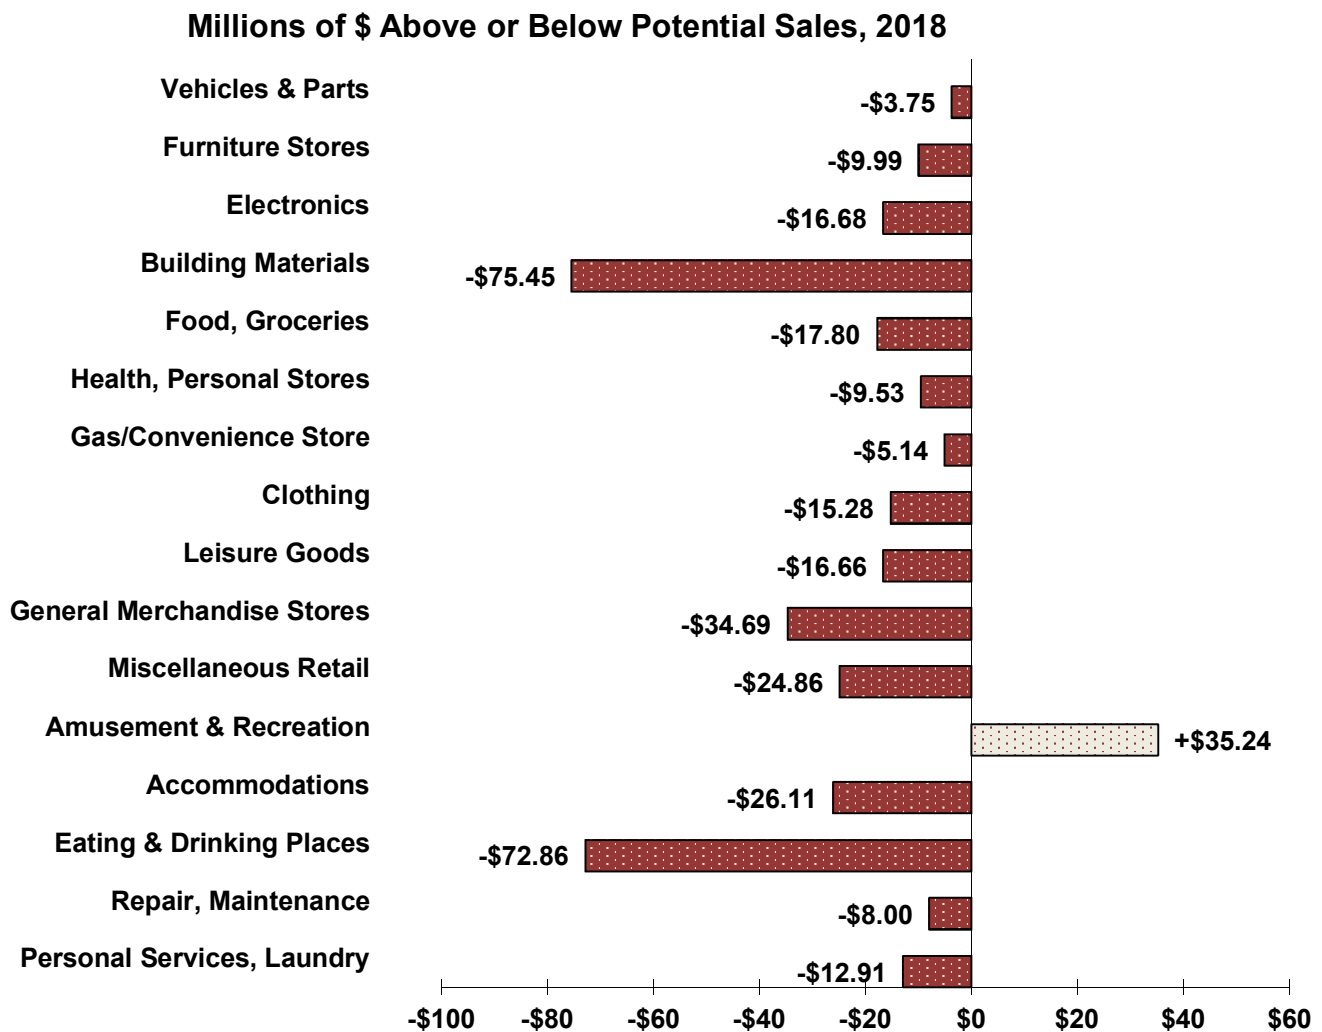

Percentage Above or Below Potential Sales, 2018

Scott County Retail Trade Performance in Dollars

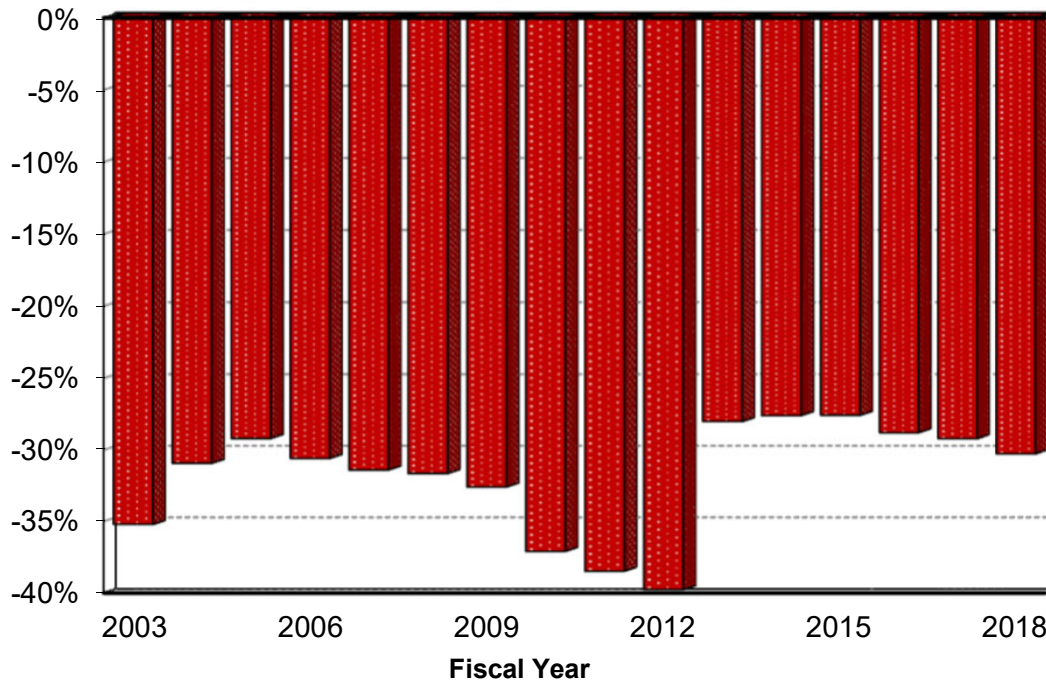

The chart below depicts the dollar amount Scott County's actual sales were above or below potential sales in 2018 by merchandise group. Of the 16 merchandise categories with reported data, sales in 1 of the categories were above the calculated potential. The strongest merchandise group by this standard is the Amusement & Recreation category, which has a \$35.2 million surplus. Overall, Scott County had a retail sales leakage of \$444.8 million in 2018.

It is important to note that variations in a county's relative retail performance may occur for a variety of reasons, some of which are beyond the control of local policy. Proximity to larger population centers, management, marketing, and transportation patterns are just a few factors that can cause the retail sales of a particular county to deviate substantially from potential sales. It is important that decision-makers consider these influences when constructing policies, plans, or projects.

Scott County Retail Trade Surplus or Leakage

County Surplus or Leakage as a Percent of Potential

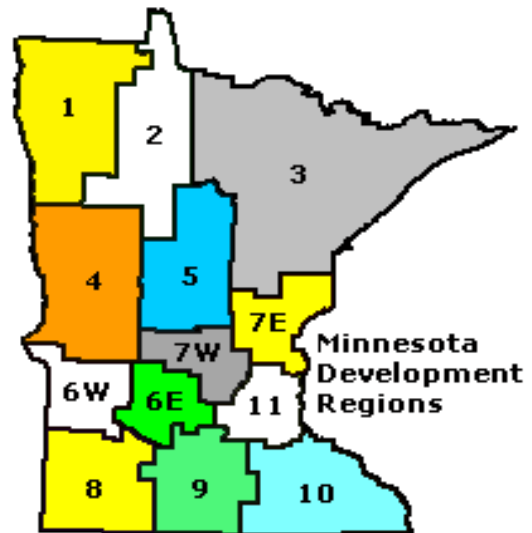

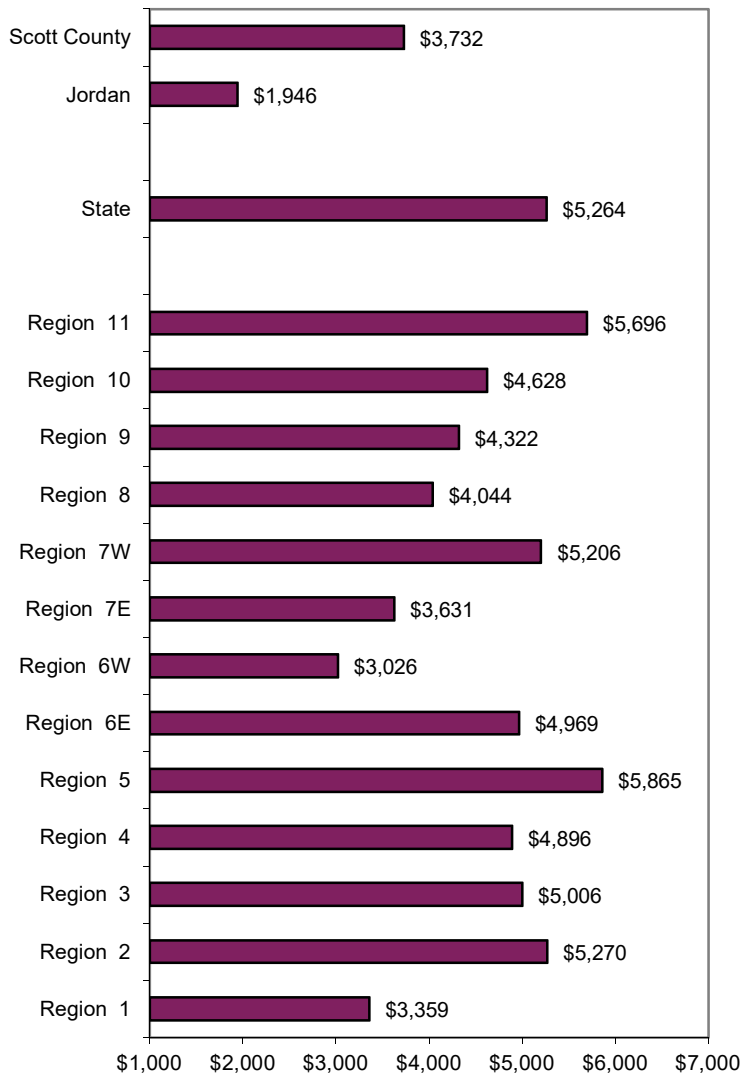

Fiscal Year	Population Estimate	Index of Income	Potential Sales (in millions)	Actual Sales (in millions)	Surplus or Leakage (in millions)	Surplus or Leakage as % of Potential	Trade Area Population Gain or Loss

2017	144,717	1.05	\$1,417.0	\$1,003.1	-\$413.9	-29.2%	-42,274
2018	146,111	1.05	\$1,469.5	\$1,024.7	-\$444.8	-30.3%	-44,224

Compare the Community to the Region

Jordan and Scott County

On other pages of this report we compared communities using a combination of retail sectors and service sectors. The information on this page only includes businesses in **retail trade** and does not include service sectors. The retail trade sectors include the following: building materials, motor vehicles & parts, clothing, food stores, electronics, convenience stores, leisure goods, health stores, furniture, general merchandise, non-store retail, and miscellaneous stores.

2018 Retail Sales per capita

State of Minnesota Per Capita Taxable Retail Sales & Threshold Levels for Selected Goods and Services 2018

Threshold level refers to the number of people per business, which can be used as a general guide for determining the "critical mass" necessary to support a business. These are broad averages for the state as a whole and do not reflect differences in income, tourism, agglomeration, establishment, etc. Further, the business counts are based on the number of sales tax returns filed and are converted to "full-time equivalents." Multiplying people per business by sales per capita yields average sales per firm. In addition to state averages, averages for the non-metropolitan regions were calculated by excluding the seven county Minneapolis-St. Paul metropolitan region.

Business Activity / Store Type NAICS	People Per Business		Sales Per Capita
